

Mr. Sujal Patil

Capital Markets Expert

Mr. Sujal Patil, is a young graduate with a Bachelor of Science in Information Technology (B.Sc. IT) and a passionate educator in the field of stock market trading. With over 4 years of active experience, he has successfully taught more than 500 students, specializing in equity and derivatives trading.

His journey into the stock market started early, fueled by a deep curiosity and the drive to build financial independence. Through consistent learning, real trading experience, and dedication, he has mastered the complexities of the market—including Futures & Options (F&O), Technical Analysis and risk management.

As a trainer, he combines practical knowledge with real-time market insights to make stock market education simple, relatable, and result-oriented. Whether it's helping beginners build strong foundations or guiding intermediate learners through live market setups, he ensure that his students are equipped with the tools and confidence to trade effectively.

Areas of Expertise:

- Equity Trading & Derivatives Strategies (Futures & Options)
- Technical Analysis – Price Action, Chart Patterns, Indicators
- Risk Management & Trading Psychology
- Live Market Training & Paper Trading
- NISM Exam Preparation (Equity & Derivatives Modules)
